# Technical Specifications

## Energig EC-MC2 Li-Ion Charger

### Highlights

- Model name: EC-MC2
- Manufacturer: XTAR
- Ultra-compact size
- Wide adaptability, adapts batteries from 10440 to 26650
- Micro-USB powered, charger everywhere as will
- Intelligent adjust suitable charging currents (0.25A/0.5A)

## Technical Specifications

- Input: DC 5.0V / 1000mA
- 0.25A Constant Current: 250mA
- 0.5A Constant Current: 500mA
- Cut-off Voltage 4.2V
- Operating Temperature 0-40°C
- Dimensions: 92mm (Length) x 40mm (Width) x 32mm (Height)
- Weight: 42g

## Compatibility

### Charges 3.6V-3.7V Li-ion / IMR / INR / ICR bateries in formats:

10440, 14500, 14650, 16340, 17335, 17500, 17670, 18350, 18490, 18500, 18650, 18700, 20700, 21700, 22650, 25500, 26650

\* Can maximally charge a flat-top 26650 cell & a flat/top 21700 cell simultaneously.
